

ENPE & EUROJUST Conference on environmental crime
28-30 October 2019
EUROJUST Headquarters, The Hague, The Netherlands

“International collaboration & co-operation in the fight against environmental crime”

Introduction, including the conference theme

This conference is hosted by two organisations with a key role in tackling environmental crime.

It will consider, discuss and evaluate international collaboration and co-operation ongoing and planned in order to further protect our environment and effectively prosecute environmental criminals.

Through a combination of plenary, breakout and workshop sessions, including case studies, our specialist presenters and delegates will work for two days on sharing and improving their approaches to ensuring crimes against the environment are appropriately sanctioned.

We are grateful for the support of the EU Life programme in our work in this area and acknowledge the contribution made by them to this conference.
